

**Tampa Convention Center stands ready to host your event! We will continue to provide the following complimentary cleaning measures as part of our GBAC Star Accreditation:**

Frequent sanitation and disinfectant of all restrooms

Continuous cleaning of all touch points

Overnight electrostatic cleaning of areas used for meetings  
*(excludes exhibits/tradeshows)*

COVID-19 branded signage in all common areas & pre-function spaces

Health screenings for all TCC employees and contractors

**Additionally, TCC is pleased to offer our clients additional services to meet the needs of their events by conveniently purchasing these services through their ancillary expenses or by reference to a reliable, local service partner:**

- ✦ Additional electrostatic cleaning in between sessions  
*\$50/hour per meeting room (1 hour minimum) & \$50/hour per ballroom (2.5 hour minimum)*
- ✦ Stationed labor to sanitize microphones during sessions  
*\$20/hour – 3 hour minimum*
- ✦ Disinfecting of classroom tables in between sessions  
*\$20/hour, 3 hour minimum, minimum 1 hour required*
- ✦ COVID-19 required signage for contracted spaces  
*May be ordered through our on-site UPS Store*
- ✦ Thermal screening for attendees  
*Clients may (1) conduct optional thermal screening of attendees with their own personnel or vendor or (2) order thermal screening services through these TCC preferred vendors: Allied Universal, Tampa General Hospital, USF College of Nursing*
- ✦ Hand sanitizing equipment within licensed space through a reliable, local provider

- Removal of fountain drinks/replaced with canned drinks/unopened

### Encore Video Teleconference Packages and Hybrid Meeting Design Options

Tampa Convention Center partners offer customized **hybrid meeting design options** to include a live audience with **presentation stages** (video, audio, LED, lighting, scenic design). Presenters, audience and crew are onsite and can include viewers and presenters virtually from any location.

TCC also offers **video teleconference packages** that allow for the transmission of audio/video signal for web based apps such as Skype & Zoom, to include a 360-degree camera for viewing speakers.
